Location & Local Information

Villa Rimbo is located in Candidasa, a picturesque seaside town in Eastern Bali; Candidasa rests on the edge of a fresh water lagoon, and is often described as a more sedate alternative to the busy, nightclub filled Kuta area. With plenty of restaurants and bars, guests are spoilt for choice; the restaurants serve delicious authentic Balinese cuisine with wide variety and at very cheap prices. Guests can take a bicycle ride around the local areas, where they can visit ancient villages seemingly untouched by modernity, and the beautiful landscapes and seascapes of this secluded and laidback coast.

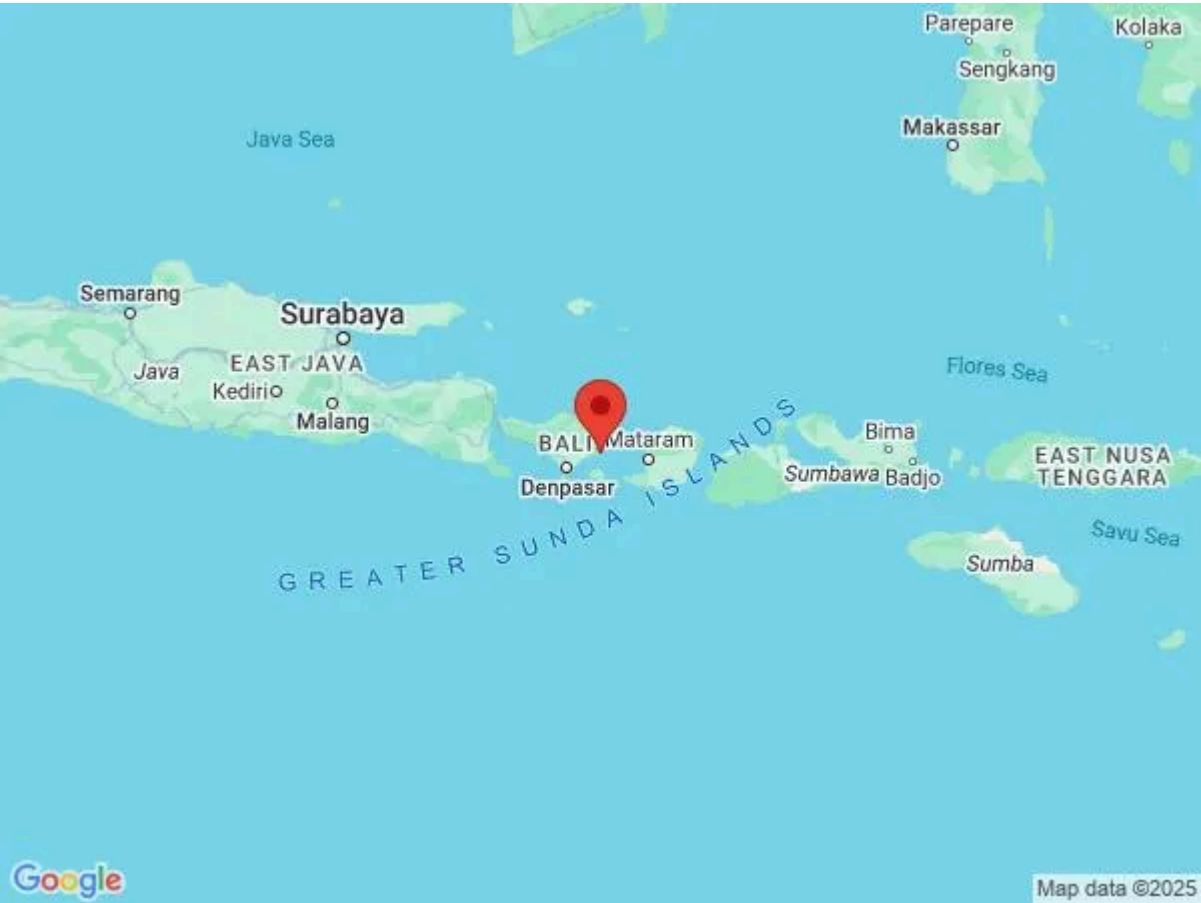

Candidasa is a great spot for snorkeling and diving. There are three islands just of the coast: Gili Tepekong, Gili Mimpang and - a bit further north-east, Gili Biaha. All three offer excellent diving, especially for more experienced divers. Currents can be quite strong and surprising, but most of the dive centres in Candidasa are trust-worthy. Other dive sites include the Jetty (in between Candidasa and Padang Bai), which is a paradise for macro fans. If guests want to visit a different beach, Pasir Putih beach, aka Virgin beach has stunning white sands and incredible turquoise waters. There are also lots of bars, restaurants and water activities here.

Guests cannot visit Bali without visiting some ancient temples; the Goa Lawahb - the 'bat cave' temple of Bali - is unique and mysterious, featuring a temple complex that was built around a cave opening home to hordes of bats. If guests fancy a challenge, the Lempuyang Temple is one of Bali's oldest and most remote temples, but if you manage to reach here, be prepared for one of the most breathtaking temple and mountain sceneries on the island. The journey here resembles a mountain trek, with steep ascents, and comprises two parts with the main temple at 1,175m above sea level on the peak of the namesake mountain. A steep staircase with over 1,700 steps lead up to the peak, through a forest inhabited by grey long-tailed macaques. The midway temple is sufficient for most visitors, with towering shrine and temple gate structures and dragon staircases. The high panoramas over the hilly region make great travel photos.

One of the focal landmarks of Candidasa is the lotus lagoon, which provides a spectacular sight with its expansive body of water filled with pink and fuchsia lotuses, and a small garden island with statues at its centre. The lagoon is free to the public, and is accessible from the roadside. Across the road on a higher elevation is the temple that the area is named after, featuring twin shrines under a densely forested hillside. From here, you get a better perspective of the whole lagoon, including a glimpse of the sea and the small offshore rock formations iconic to the Candidasa seascape.
