# Location & Local Information

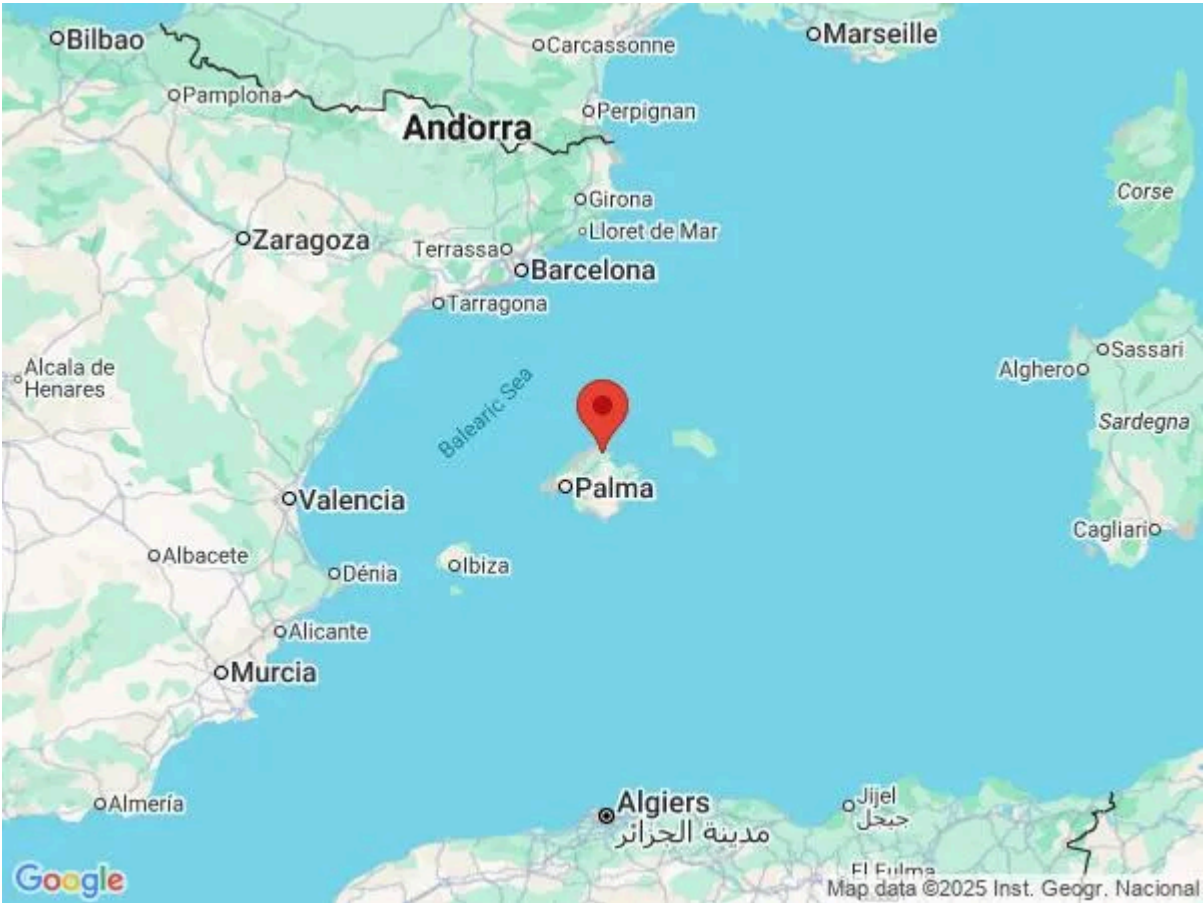

Pollensa is an expansive and enriching region that offers guests a plethora of inspiring attractions to enjoy. If you are looking to uncover more about the prehistoric legacy of this area, a trip to Alzinaret Caves is an unmissable experience. These looming caves were first discovered in 1927 and are said to date back to 1600BC. As a result, guests are free to observe a wide variety of artefacts dating all the way back to the Middle Bronze Age. These structures were discovered by acclaimed British archaeologist Wilfred Hemp and guests are free to discover a cave named in his honour.

Pollensa Museum is a deeply intrinsic tourist attraction and is well-recognised for showcasing the beautiful works of Atilio Boveri. Originally, this establishment was used to store a collection of ornate Gothic altarpieces. These items were very well received by a collection of artistic bodies and were even praised at the prestigious Summer Exhibition of Painting in the 1960s. In 1975, this museum finally opened its doors to the public, making it one of the most iconic art galleries in the entirety of Europe.

Formentor Lighthouse is one of the most popular landmarks within Pollensa and is situated just under an hour away. This monument was first constructed in 1863 as a way to protect small fishing boats from the sharp and dangerous rocks that sit at the base of the local shores. Over time, this lighthouse also became a key piece of inspiration to many literary creatives, such as Gerardo Diego and Blas de Otero, further exemplifying its rich significance within this area. Guests can drive the short distance toward the peak of the lighthouse and bask in an assortment of beautiful panoramic views.
