Location & Local Information

Nestled above the coast road Villa Zrinka is approximately 1.2 kilometres from the centre of Makarska and its beautiful beaches and local restaurants. The beaches of Makarska are famous for its long winding stretch of fine pebbles behind which there is a promenade with pine and palm trees offering shade on hot summer days. A perfect place for families, there is so much to do. From renting pedalos to riding a banana or jet ski, of simply enjoying the streets of the old town. Makarska is found at the crossroads between road and sea routes making it the perfect location for day trips to the islands of Brac, Hvar and Korcula.

Why not take a day out to enjoy everything Biokovo nature Park has to offer? Biokovo is a huge relief barrier which separates the sea and the interior of the country. Enjoy taking in untouched nature, breath-taking views on the second highest Croatian mountain. The cherry on the cake at this stunning location is the Skywalk. A horse shoe shaped glass-floored viewpoint offers amazing views of the Dalmatian Islands.

Approximately forty minutes away is the town of Omis. Here you will find everything you need from stores, banks, cafes and restaurants. For the adventurous traveller there is so much to do, from Kayaking, white water rafting, bungee jumping to rock climbing. Omis also offers a one of a kind adventure where you can experience zipping across the Centina River Canyon 150 metres above ground level.

History lovers will be spoiled for choice in Omis for things to see. The Fortress Mirabella is a 13th Century fortress situated behind the Old Town. It is reached by taking the steps next to the Church of Saint Michael. Although there are a lot of steps to climb it is well worth the effort for the spectacular views. Apart from the Church of Saint Michael, there are a number of old churches and an old Franciscan Monastery housing an impressive art collection and library of ancient Turkish documents. 15th Century Fortress Starigrad is also well worth a visit. Again,

it involves a climb which takes at least one hour, so not for the faint hearted. Once you have committed to the hike you will not be disappointed. Perched 303 metres above sea level it served as the primary lookout point for the entire Brac channel and the views you will enjoy will be your reward for your hard work.
