What we love

- This is a fascinating old house that is certainly quirky but very well finished at the same time. There seem to be endless different areas that you can while away your time.
- The main living room is huge with a grand piano and and furniture from all over the world. There are also two cute little areas above the living room from where the whole room can be seen. Good way to stay with the family but get a little privacy.
- Both the pool area and the rear terrace have fantastic views of the surrounding countryside.
- It's great being a short distance from a village with tennis, a river beach, supermarket and other amenities

What you should know...

• The village road runs to front of the property which splits the grounds at the front from those to the rear - most of your time will be spent on the terrace and pool which are to the rear and the good sized garden near the kitchen so it doesn't make much difference either way. The grounds to the front are substantial and include the orchard, the stream and some lovely gardens.
