Little Sustainability Gems About the Property

The property was refurbished a number of years ago and most of the electricity is powered by solar panels and air-to-water systems, making the heating and running of the house very efficient. It was built in 1740, and some of the stone used was from a castle on the estate that's from the 15th Century, so it helps to preserve local heritage.

Location & Local Information

Beaufort Manor is set in the charming village of Beaufort on the southern banks of the river Laune, acting as a gateway to the majestic McGillicuddy Reeks. This naturally beautiful spot boasts Ireland’s highest mountain, Carrauntohill, that draws thousands of climbers each year.
